

Doing the right thing

May 28, 2025

Doing the right thing

Raghuram, a valued member of our MS SQL DBA team, has consistently delivered strong performance over the past several months. His exceptional work in swiftly remediating the Zero-Day Vulnerability across all 900+ servers through the repave process is highly appreciated by the client. We commend his dedication to the project. [Congratulations](#), Amar, and keep up the excellent work!
